

UPDATE

Providing a GP service in the Pensnett locality

We would like to update you that we are still working on a long term option for providing a GP service in the Pensnett locality following our public conversation which concluded in 2023. Please be assured that whilst we work with our partners on the options, we are committed to retaining 2 GP sessions per week operating from the portacabin site in Pensnett as we are now.

**As ever, if you do have any questions or comments,
please speak with either the practice staff or
your local ward councillor.**
